

FERRO STROUSE GALLERY

announces
its inaugural show,
the first-annual 'preliminary' exhibition:

END VEHICLES: SKETCHES FOR LATER WORKS

End Vehicles: Sketches for Later Works, a group exhibition of twelve international artists, presents visions for the future(s). These plans point toward what is to come.

The sketch is a statement of faith—faith in the artist's vision, faith in the process of art-making, and the ability to side-step time. Mediating between the realized and the latent, the sketch encourages a posture of hope in the future. In its dedication, the sketch marks out a space for love.

With a **BIRTHDAY PARTY** opening reception on October 10th from 7pm to 9pm.
